SESSION 1 — Destination Positioning (75 min)

#	Layout	Title / Purpose	Notes

5	L2 Divider	**Session 1 · Where Does The Gambia Stand Today?**	Eyebrow: SESSION 1. Subtitle about reading the evidence together, not a critique
6	L3 Content+image	**A shared reading of evidence**	Opening frame — three bullets on purpose, tone, and what findings are/aren't. Image: Gambia scene or tourist-facing context
7	L9 Exercise	**Activity · Three words**	Perception gap prompt (15 min). Write 3 words visitors use today, 3 words you want. Share in pairs. *Place early so data doesn't prejudice the room*
8	L7 Pull quote / big stat	**95% beach. 91% wildlife. 9% creative.**	Stat callout — share of operator pages. Deliverable 2, §3.2. Source line below
9	L6 4-card grid (adapted)	**Two narratives dominate**	Beach/resort · Wildlife/nature · Cultural heritage (mentioned but not primary) · Creative industries (largely absent). Pink on "creative industries" as the hero card
10	L7 Big stat	**16.9 vs 30.9**	Creative Tourism Score — Gambia vs regional mean. Deliverable 2, Table 10. Below: 9% Gambia · 26% Senegal · 21% Ghana operator mention rate
11	L3 Content+image	**This reflects communication, not offer**	Key framing bullet. Separates the problem from the product. Image: craft market or festival scene
12	L2 mini-divider or L3	**Who is coming — and who isn't**	Transition into source markets
13	**Stat/chart** (new layout — pie or bar)	**Source market breakdown**	UK/Anglophone 45% · Dutch/Belgian 34% · Francophone 15% · German/Swiss 3% · Southern European 3%. Deliverable 2, §4.4. *Confirm format when we pull the numbers*
14	L6 4-card grid	**What each segment values**	Four cards (UK · Dutch · Francophone · German+Southern EU). Each with avg rating + one-line characterisation. Pink on Francophone as the "gap" hero
15	L7 Pull quote	**"Liked but not looked for."**	Deliverable 2 Executive Summary. This is the key framing of the session

16	L7 Big stat	**#1 regionally on safety**	Single stat. Deliverable 2, §4.2. Subhead: A competitive advantage rarely foregrounded
17	L4 Before/after *or* L3	**Regional positioning context**	Gambia ranks 4th of 6 on creative digital maturity. Show rank table or simple bar. Strongest: Marketing/Publishing 38/70. Weakest: Fashion/Design 14/70
18	L7 Big stat	**16.9 → 33.9**	Pure Gambia tours vs Senegal+Gambia packages. Creative Tourism Score doubles. Deliverable 2, Table 11. Implication: regional framing unlocks creative visibility
19	L3 Content+image	**Session 1 takeaway**	3 bullets: communicative not structural · Francophone gap is biggest source-market opportunity · regional framing helps. Image or simple close graphic
